

6712-01

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0687 and 3060-0678]

Information Collections Being Submitted to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The Commission may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A._Fraser@omb.eop.gov; and to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the Title as shown in the "Supplementary

Information” section below.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select "Federal Communications Commission" from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of Commission ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the Commission’s submission to OMB will be displayed.

OMB Control Number: 3060-0687.

Title: Access to Telecommunications Equipment and Services by Persons with Disabilities, CC Docket No. 87-124 and CG Docket No. 13-46.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Businesses or other for-profit entities; not-for-profit entities.

Number of Respondents and Responses: 331 respondents; 3,028 responses.

Estimated Time per Response: .25 hours (15 minutes) to 24 hours.

Frequency of Response: Annual and on-occasion reporting requirements; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in section 710 of the Communications Act of 1934, as amended, 47 U.S.C. 610.

Total Annual Burden: 7,236 hours. Total Annual Cost: \$991,618.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information from individuals.

Privacy Impact Assessment: No impact(s).

Needs and Uses: This notice and request for comments pertains to the extension of the currently approved information collection requirements concerning hearing aid compatibility (HAC) for wireline handsets used with the legacy telephone network, updated estimates of existing burdens that were included in the February 2015 PRA submission to OMB, and new collections related to HAC for wireline handsets used with advanced communications services (ACS), such as Voice over internet Protocol (VoIP). These handsets are known as ACS telephonic customer premises equipment (ACS telephonic CPE).

Beginning in the 1980s, the Commission adopted a series of regulations to implement statutory directives requiring wireline telephone handsets in the United States (for use with the legacy telephone network) to be hearing aid compatible. In 2010, the Twenty-First Century Communications and Video Accessibility Act (CVAA), Public Law 111-260, sec. 102, 710(b), 124 Stat. 2751, 2753 (CVAA) (codified at 47 U.S.C. 610(b)), amended by Public Law 111-265, 124 Stat. 2795 (technical corrections to the CVAA), amended section 710(b) of the Communications Act of 1934 to apply the HAC

requirements to ACS telephonic CPE, including VoIP telephones. In accordance with this provision, the Commission adopted Access to Telecommunications Equipment and Services by Persons with Disabilities et al., Report and Order and Order on Reconsideration, FCC 17-135, released October 26, 2017, which amended the HAC rules to cover ACS telephonic CPE to the extent such devices are designed to be held to the ear and provide two-way voice communication via a built-in speaker.

The information collections contain third-party disclosure and labeling requirements. The information is used to inform consumers who purchase or use wireline telephone equipment whether the telephone is hearing aid compatible; to ensure that manufacturers comply with applicable regulations and technical criteria; to ensure that information about ACS telephonic CPE is available in a database administered by the Administrative Council for Terminal Attachments (ACTA); and to facilitate the filing of complaints about the ACS telephonic CPE.

Wireline Handsets Used With the Legacy Telephone Network

- 47 CFR 68.224 requires that every non-hearing aid compatible wireline telephone used with the legacy wireline network that is offered for sale to the public contain in a conspicuous location on the surface of its packaging a statement that the telephone is not hearing aid compatible. If the handset is offered for sale without a surrounding package, then the telephone must be affixed with a written statement that the telephone is not hearing aid compatible. In addition, each handset must be accompanied by instructions in accordance with 47 CFR 62.218(b)(2).

- 47 CFR 68.300 requires that all wireline telephones used with the legacy wireline network that are manufactured in the United States (other than for export) or imported for

use in the United States and that are hearing aid compatible have the letters “HAC” permanently affixed.

ACS Telephonic CPE

- New § 68.502(a) of the Commission's rules contains information collection requirements for ACS telephonic CPE that are similar to the HAC label and notice requirements in 47 CFR 68.224 and 68.300 (discussed above), i.e., the “HAC” labeling requirement for hearing aid compatible equipment, and the package information for non-hearing aid compatible equipment, apply to ACS telephonic CPE.
- New § 68.501 of the Commission's rules requires responsible parties to obtain certifications of their equipment by using a third-party Telecommunications Certification Body (TCB) or a Supplier's Declaration of Conformity. (A responsible party is the party, such as the manufacturer, that is responsible for the compliance of ACS telephonic CPE with the hearing aid compatibility rules and other applicable technical criteria. A Supplier's Declaration of Conformity is a procedure whereby a responsible party makes measurements or takes steps to ensure that CPE complies with technical standards, which results in a document by the same name.) Section 68.501 of the Commission's rules applies to ACS telephonic CPE rule sections defining the roles of TCBs and the uses of Supplier's Declarations of Conformity for wireline handsets used with the legacy telephone network.
- New § 68.504 of the Commission's rules requires information about ACS telephonic CPE to be included in a database administered by ACTA. (ACTA is an organization, previously created pursuant to FCC regulations, whose key function is to maintain a

database of telephone equipment.) In addition, ACS telephonic CPE must be labeled as required by ACTA.

- New § 68.502(b)-(d) of the Commission's rules requires responsible parties to: Warrant that ACS telephonic CPE complies with applicable regulations and technical criteria; give the user instructions required by ACTA for ACS telephonic CPE that is hearing aid compatible; give the user a notice for ACS telephonic CPE that is not hearing aid compatible; and notify the purchaser or user of ACS telephonic CPE whose approval is revoked, that the purchaser or user must discontinue its use.
- New § 68.503 of the Commission's rules requires manufacturers of ACS telephonic CPE to designate an agent for service of process for complaints that may be filed at the FCC.

OMB Control No.: 3060-0678.

Title: Part 25 of the Federal Communications Commission's Rules: Governing the Licensing of, and Spectrum Usage by, Commercial Earth Stations and Space Stations.

Form Nos.: FCC Form 312; Schedule A; Schedule B; Schedule S; FCC Form 312-EZ; FCC Form 312-R.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 5,036 respondents; 5,094 responses.

Estimated Time per Response: 0.5-80 hours per response.

Frequency of Response: On occasion, one time, and annual reporting requirements; third-party disclosure requirement; recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 301, 302, 303, 307, 309, 310, 319, 332, 605, and 721.

Total Annual Burden: 35,622 hours.

Annual Cost Burden: \$12,411,120.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information. Certain information collected regarding international coordination of satellite systems is not routinely available for public inspection pursuant to 5 U.S.C. 552(b) and 47 CFR 0.457(d)(vii).

Needs and Uses: On September 27, 2017, the Commission released a Report and Order, FCC 17-122, titled, “Update to Parts 2 and 25 Concerning Non-Geostationary, Fixed-Satellite Service Systems and Related Matters.” In this Report and Order, the Commission updated and streamlined its rules governing satellite constellations that operate in the fixed-satellite service. Many of the amendments are substantive changes intended to give licensees greater operational flexibility. At the same time, however, many more applications for non-geostationary, fixed-satellite service systems have been filed, increasing the overall information collection burden.

The information collection requirements in this collection are needed to determine the technical, legal, and other qualifications of applicants and licensees to operate a radio station and to determine whether grant of an authorization serves the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide communications services in the

United States. Therefore, the Commission would not be able to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization Basic Telecom Agreement.

Federal Communications Commission.

Marlene H. Dortch,

Secretary,

Office of the Secretary.
